SUMMARY

Frontend Developer with a focus on HTML, CSS, JavaScript, React.js, Tailwind CSS, and Git. Currently working on a personal project, showcasing skills in web development and collaboration. Seeking a Frontend Developer Intern position to further enhance skills, contribute to exciting projects, and gain practical industry experience.

EDUCATION

Frontend Software Development

Frontend Software Development
Tech4Dev Oct 2023 - May 2024

Frontend Software Development

Frontend Software Development
ALX Sept 2022 - Oct 2023

PROJECTS

- I led a team of fellow developers in the creation of a responsive and interactive web application using HTML, Tailwind CSS, and JavaScript.
- Ensures that every team member fully engages and aligns with the project's objectives while ensuring that everyone adheres to best practices throughout the development process.
- Through effective communication and guidance, facilitated a collaborative environment where ideas could flourish and contributions valued.

SKILLS

- Frontend: HTML, CSS, JavaScript, React Js, Tailwind CSS.
- Version Control: Git and GitHub.
- Others: OCaml, Python
- Soft Skill: Teamwork, Communication, Active Learning, Time Management, Growth Mindset.

EXPERIENCE

Frontend Developer

Tech4Dev Capstone Project | Apr 2024 - May 2024

- Collaborated with product designers and cross-functional teams to translate user interface designs into interactive web experiences using HTML, JavaScript, and Tailwind CSS.
- Led a team of front-end developers, fostering adherence to industry best practices and ensuring timely project completion.
- Prioritized responsive design and cross-browser compatibility to deliver a seamless user experience across various devices and platforms.

Contributor

OCaml.org | Mar 2024 - Apr 2024

- I contributed to OCaml.org during the Outreachy contribution phase for summer internship application.
- As a contributor, I explored the 'Run OCaml Exercise Everywhere' initiative within an open-source project.
- Gained experience in collaboration and teamwork within version control systems.
- Developed skills in OCaml, effective communication, problem-solving, and navigating collaborative workflows.
- Enhanced understanding of version control's role in facilitating seamless collaboration and project management in distributed team environments.

CERTIFICATIONS

- Programming In JavaScript Certification - Coursera - 2024
- Frontend Software Development Certificate Program - ALX 2023
